# Chapter 1

1) R                      2) Shiny                      .                      4

0.	Shiny	.
1.	R RStudio	.
2.	install.package()	library()
3.	ggplot2	.
4.	pipe (%>%)	.

1.  $\mathbb{R}$
2.  $\mathbb{R}$

(shiny) RStudio R . R  
( ) . Shiny .

10            0 1            .

                 .            ?            .

```
install.package("shiny")
install.package("tidyverse")
```

## Chapter 2

Here is a review of existing methods.

# Chapter 3

We describe our methods in this chapter.

## Chapter 4

# Shiny : ui & server

Some *significant* applications are demonstrated in this chapter.

### 4.1 Example one

### 4.2 Example two

## Chapter 5

```
ui 1: *input()
```

We have finished a nice book.

## Chapter 6

### ui 2: \*Output()

We have finished a nice book.

## Chapter 7

**server: render\*()**

We have finished a nice book.

## Chapter 8

### : shinydashboard

We have finished a nice book.

## Chapter 9

: [shinyapps.io](http://shinyapps.io)

We have finished a nice book.
