2.   R

            .   ( )   .
            .   10   0 1   .
        .   .
      ?   .

```r
install.package("shiny")
install.package("tidyverse")
```

Chapter 1

Here is a review of existing methods.

Chapter 2

We describe our methods in this chapter.

Chapter 3

Shiny : ui & server

Some *significant* applications are demonstrated in this chapter.

Chapter 4

ui 1: *input()

We have finished a nice book.

Chapter 5

ui 2: *Output()

We have finished a nice book.

Chapter 6

server: render*()

We have finished a nice book.

Chapter 7

: shinydashboard

We have finished a nice book.

Chapter 8

: shinyapps.io

We have finished a nice book.
